

Request for a custom dataset from the AMDI Database

Contact Name	
Phone	
Email	
Organisation	
Organisation address	
Provide a description of the intended use (purpose) of the data.	
Describe data required. Geographical parameters Time frame of data Geospatial parameters Types of data eg. item lists, event summaries. <i>We recommend doing some research on the AMDI App to evaluate the types of data AMDI captures.</i>	
What format do you require the data set eg Excel, CSV, API, other.	
When do you require the data by?	

Request for a custom dataset from the AMDI Database

Tangaroa Blue Foundation will review every request received and reserves the right to decline any request.

TBF will not make available any data that can identify individuals or personal information. Data sets requested from a third party for project-related data will need to be released by the data owners.

Data contained in the AMDI Database remains the property of the original contributors and the Australian Marine Debris Initiative®.

Data disseminated publicly for any purpose must correctly acknowledge data contributors and the Australian Marine Debris Initiative® must be acknowledged using the following statement:

“[We/entity] acknowledges The Tangaroa Blue® Foundation’s Australian Marine Debris Initiative® (AMDI) Database, the community organisations, and individuals for collection and the provision of the data used in this [publication/presentation/material]

A copy of your final draft is requested before being made public in any form.

Some data sets may attract a fee for specialist services such as SQL data extraction into custom table structures, technical support provided for analysis and reports, the construction of APIs or other technical consultation services provided by Tangaroa Blue Foundation.

Please email this completed form to data@tangaroablue.org. We will contact you as soon as possible to discuss your data request.
